This Guide was developed to help consumers compare housing, services and costs to help you choose a Housing with Services Establishment that will best meet your needs. The intent is that each individual makes informed choices about where they live and what kind of help they need; and that each individual lives with their maximum independence, dignity, respect and privacy.

Housing With Services: In this setting, you are renting "housing" and buying health-related "services". A single company may provide both the housing and the services, or the building may have an arrangement with home care agencies and other companies to provide some or all of the services. Please note that not all Housing With Services provide Assisted Living.

Assisted Living: The legal requirements for Assisted Living vary by state. Minnesota's laws related to Assisted Living are based on the concept of "Housing With Services". In Minnesota, Housing With Services providers may call themselves "Assisted Living" only when they meet additional basic requirements under Minnesota law [MN Statute 144G]. The rights you have as a tenant of the housing and a client of the services are listed on the last page of this Guide.

While this Guide is designed to help you find the Establishment that best matches your needs, no Guide can cover every detail. Housing With Services Establishments vary in size, services and costs so be sure to visit the places you are considering, and ask to meet with a staff person one-on-one to discuss your specific needs and preferences.

Here are some things to consider during your visit:

- Ask to see a copy of their standard housing contract.
- What is the total amount it will cost to live and receive services at this building per month? Ask for specifics, including whether items are individually priced or packaged together.
- Why could the housing with services ask a tenant to move out?
- What are the limitations on services a client can receive from this provider? What are the reasons why the provider could stop providing services to a client?
- Does the provider offer opportunities for religious or spiritual practice?
- What opportunities and policies exist for tenants/clients and families to make recommendations about the building and services?

You can get further information, at no cost, about care options from:

- Senior LinkAge Line at 1-800-333-2433; www.mnaging.org/advisor/SLL.htm

When you move into a building, you will sign a rental or residency agreement that covers your occupancy of an apartment or unit. Review this agreement carefully prior to signing because it will identify situations when the landlord could ask you to move out, such as non-payment, damage to the building, or other reasons.

Home Care Provider: In addition to a rental agreement, you will also sign a service agreement or service plan that covers services you will receive from the licensed home care provider. The building owner may be the home care provider and other times services may be provided by one or more outside home care providers. You have

the right to choose freely among home care providers and to change providers after services have begun. This building has an arrangement with the following home care agency to provide services to its tenants.
